SUNI SPOTLIGHT:

SHINE films are created specifically for young people, offering relatable and engaging content that opens the door to meaningful faith conversations. With thought-provoking content and real-life stories, they encourage honest dialogue about faith, making it easier for young people to share their own faith with their friends in school and through their church. This year the theme is 'FRIEND', exploring the friendship that we can each have with God, what that looks like and the difference that friendship makes in our lives.
